Hurricane Preparation Tips for Boaters

ACE’s Hurricane Preparation Tips for Boaters

1. Develop a detailed plan of action to secure your vessel in the marina (if permitted). Alternatively, you may remove your boat from the threatened area or take your boat to a previously identified storm refuge. Specifically identify and assemble needed equipment and supplies. Keep them together and practice your plan to ensure it works before the hurricane season. Arrange for a qualified and capable friend or a licensed professional captain to carry out your plans if you are out of town during the hurricane season.

2. Check your lease or storage rental agreement with the marina or storage facility. Know your responsibilities and liabilities as well as those of the marina.

3. Owners of non-trailerable boats in wet storage have options that include the following: 1) Secure the boat in the marina berth; 2) Moor the boat in a previously identified safe area; or 3) Haul the boat.

4. Owners of boats remaining in a marina berth can take the following precautions: Double all lines. Rig crossing spring lines fore and aft. Attach lines high on pilings to allow for tidal rise or surge. Make sure lines will not slip off pilings. Inspect pilings and choose those that appear the strongest and tallest, and are installed properly.

5. Cover all lines at rough points or where lines feed through chocks to prevent chafing. Wrap with tape, rags and rubber hoses or leather. Install fenders, fender boards or tires if necessary to protect the boat from rubbing against the pier, pilings and other boats.

6. Fully charge the batteries and check to ensure their capability to run automatic bilge pumps for the duration of the storm. Consider backup batteries. Shut off all devices consuming electricity except bilge pumps, and disconnect shore power cables.

7. When a hurricane is impending, and after you have made anchoring or mooring provisions, remove all portable equipment such as canvas, sails, dinghies, electronics, cushions, biminis and roller furling sails. Lash down everything you are unable to remove such as tillers, wheels and booms.

8. Maintain an inventory of both the items removed and those left on board. Items of value should be marked so that they can be readily identified. You should also consider maintaining a video or photographic record of the boat and its inventory in a secure location other than the vessel itself for future reference.

9. Consolidate all records including insurance policies, a recent photo of your vessel, boat registration, equipment inventory, and the lease agreement with the marina or storage facility. Ensure that you include the telephone numbers of appropriate authorities, such as the U.S. Coast Guard, Harbor Master, your insurance agent, and claim reporting number of your insurance carrier, and keep them on hand.

10. Do not stay aboard. Winds, during any hurricane, can exceed 100 mph and tornados are often associated with these storms. Above all, safeguard human life.

Please see reverse side for important insurance coverage information.
Another important component in preparing for a hurricane or any severe storm is to make certain your insurance policy is current and to review the policy thoroughly. The policy includes an abundance of helpful and advisory information.

For more than two centuries, ACE has been the choice of conscientious boat owners nationwide. We offer superior coverage for all sizes of vessels—from ski boats to large luxury yachts—and our policies have long been considered the standard by which others are measured. ACE policies provide comprehensive coverage along with unique benefits and features, including:

- **Agreed Value Coverage** — We pay the entire agreed amount, with no deductible, for a total loss.
- **Replacement Cost Loss Settlement** — Repair or replacement of your covered property is paid for without deduction for depreciation on most partial losses.
- **Liability Protection** — Limits of coverage to suit your personal needs, including: legal defense costs, pollution and contamination coverage, wreck removal and Jones Act coverage for paid crew.
- **Medical Payments** — Reasonable medical and related expenses are included for all those onboard, or boarding or leaving, the covered vessel. Optional and customized limits are available.
- **Uninsured Boater Coverage** — Pays for bodily injury to persons aboard the insured watercraft who are injured by an uninsured owner or operator of another vessel.
- **Federal LHWCA** — When liability coverage is purchased, coverage is automatically provided for those employed aboard the vessel who are within the jurisdiction of the Federal Longshore and Harbor Workers’ Compensation Act.
- **Personal Property & Fishing Equipment Coverage** — Protection is automatically included for the clothing, personal effects and fishing gear of the boat owner and guests. Optional higher limits are available.
- **Uninsured Boater Coverage** — Pays for bodily injury to persons aboard the insured watercraft who are injured by an uninsured owner or operator of another vessel.
- **Towing & Assistance** — Provided free of charge with optional limits available.
- **Tender/Dinghy Coverage** — Automatically included, with optional limits and deductibles available.
- **Trailer Coverage** — Optional protection is available with a low deductible.
- **Hurricane Haul-out Coverage** — Optional protection may be available in select storm-prone areas and provides coverage for haul-out and storage fees when necessary to protect an insured vessel during a named storm.

Whether you’re interested in coverage for a large yacht or small runabout, or a policy to cover pleasure, corporate or occasional charter use, ACE can offer the protection you need.

- Pleasure Yachts 27 feet or larger
- Recreational Boats less than 27 feet
- Mega-Yachts and Luxury Sailboats
- Sport Fishing Boats
- Classic and Vintage Boats and Yachts
- High Performance Vessels
- Ski Boats
- Personal Watercraft
- Select Charter Vessels
- Many other programs available
