Gowrie Group, New England’s most prominent insurance agency, is proud to announce their support and involvement of Raise the Roof’s 2019 “The Build at Bishops” to benefit Habitat for Humanity. Gowrie Group has supported Habitat for Humanity for many years, through various donations, and opportunities to volunteer. This year, Gowrie Group was the Lead Sponsor for the project along with Shore Publishing.

Raise the Roof, the Shoreline Habitat for Humanity connection, held their annual day of building on Saturday, June 8th. This year’s event had a twist on it as Raise the Roof partnered with Roots 4 Relief, another fantastic local non-profit organization. The new idea for this year’s build was to align the event with Roots 4 Relief’s mission, ‘Empowering Children to Make a Difference,’ and to get more families and youth to participate.
In addition to Gowrie Group’s financial support, fourteen Gowrie Employees and their family members assembled at Bishops Orchard for the hands-on construction work. The team built three exterior walls for use in future Habitat for Humanity houses, which empowers our Shoreline community to partner with Habitat families on their journey to build and own a home.

Chris Brodeur, Gowrie’s Senior Vice President shared, “Gowrie Group always looks forward to the Raise the Roof build project. The new location at Bishop’s Orchard and the beautiful weather was a great setting to build three walls in our 90 minute time slot. Our team enjoys sharing their time and talents in support of the amazing work being done for Habitat for Humanity.”

Raise the Roof is dedicated to the elimination of poverty housing through community participation that includes financial support, volunteer labor and leadership for local, national and global Habitat for Humanity International builds. Gowrie Group is proud to be one of the many businesses involved in helping this cause.
